CHELONE (Turtlehead) ●◆				
lyonii 'Hot Lips' Native cultivar	2-3'	18-30"	Pink	Aug-Oct

CLEMATIS

Cultivated Clematis plants are often divided into three groups based on pruning needs:

Group 1 – Flowers only on old wood (previous year). Prune after spring flowering.

Group 2 – Flowers on both old and new wood. Typically, little pruning should be done for woody-stemmed members of this Group. If cut to the ground or pruned in fall or spring, flowering will be reduced or delayed but not prevented.

Group 3 – Flowers only on new wood. Can be cut to the ground in fall or spring.
